Re: Approval of the minor modification to the Building 771 Closure Project Decommissioning Operations Plan Modification 3 and Proposed Action Memorandum for Under Building Contamination Remediation

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the Division), has reviewed the proposed minor modification to the Building 771 Closure Project Decommissioning Operations Plan Modification 3 and Proposed Action Memorandum for Under Building Contamination Remediation (hereafter called the 771/774 DOP and PAM) dated June 11, 2001. The Division hereby approves the minor modification to the Building 771/774 DOP and PAM.

The removal of the mixed residue tank systems from Building 771 has been verified by the Division. Thus, the Division has determined that the Rocky Flats Environmental Technology Site (RFETS) has met the requirement to bring the mixed residue tank systems in Building 771 to a physically empty status by December 31, 2001 as stated in the Mixed Residue Tank Plan per Compliance Order on Consent Number 99-09-24-01. The Division has also determined that RFETS has met the requirements specified in paragraphs 66(i) and 66(iii) of Compliance Order on Consent Number 99-09-24-01, with the removal of the actinide piping systems containing mixed residues from Building 771. Therefore, the requirements of Compliance Order on Consent Number 99-09-24-01 as they pertain to Building 771 have been met.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator

Joe Schieffelin, Unit Leader
